Whole Foods Market, Daily Shop

The first prototype store of the partnership between Whole Foods Market Inc. and Schweitzer has opened its doors on September 18th, 2024, in Manhattan, New York City.

This collaboration involved the **development of a new store format**: the Whole Foods Market Daily Shop.

Ranging between 7,000 to 14,000 square feet, the quick-shop stores will pave the way for expansion in dense, metropolitan areas.

The goal of the store concept was to provide our client with a **flexible space**, easily and rapidly adaptable to changing seasons, trends and consumer needs.

CLIENT

Whole Foods Market Inc.

LOCATION

Third Avenue, New York City, USA

OPENING

September 18th, 2024

SALES AREA

9,101 ft²

CATEGORY

Retail, Food, Daily Shop

SCOPE OF WORK

DESIGN + BUILD

Refrigeration Cases

DESIGN BUILD

Our unique retail approach:

Design + Build, all from ONE source.

In close co-operation with our customers, we turn their vision into reality.

BENEFITS

- From the idea to realisation, everything from a single source
- Guaranteed adherence to schedule + budget
- Flexibility + speed in realisation

REFRIGERATION CASES

Almost half the electricity consumption in supermarkets is due to refrigeration. With our **energy efficient** refrigerated cabinets, counters and refrigeration systems from our own production, retailers make **savings on energy costs.**

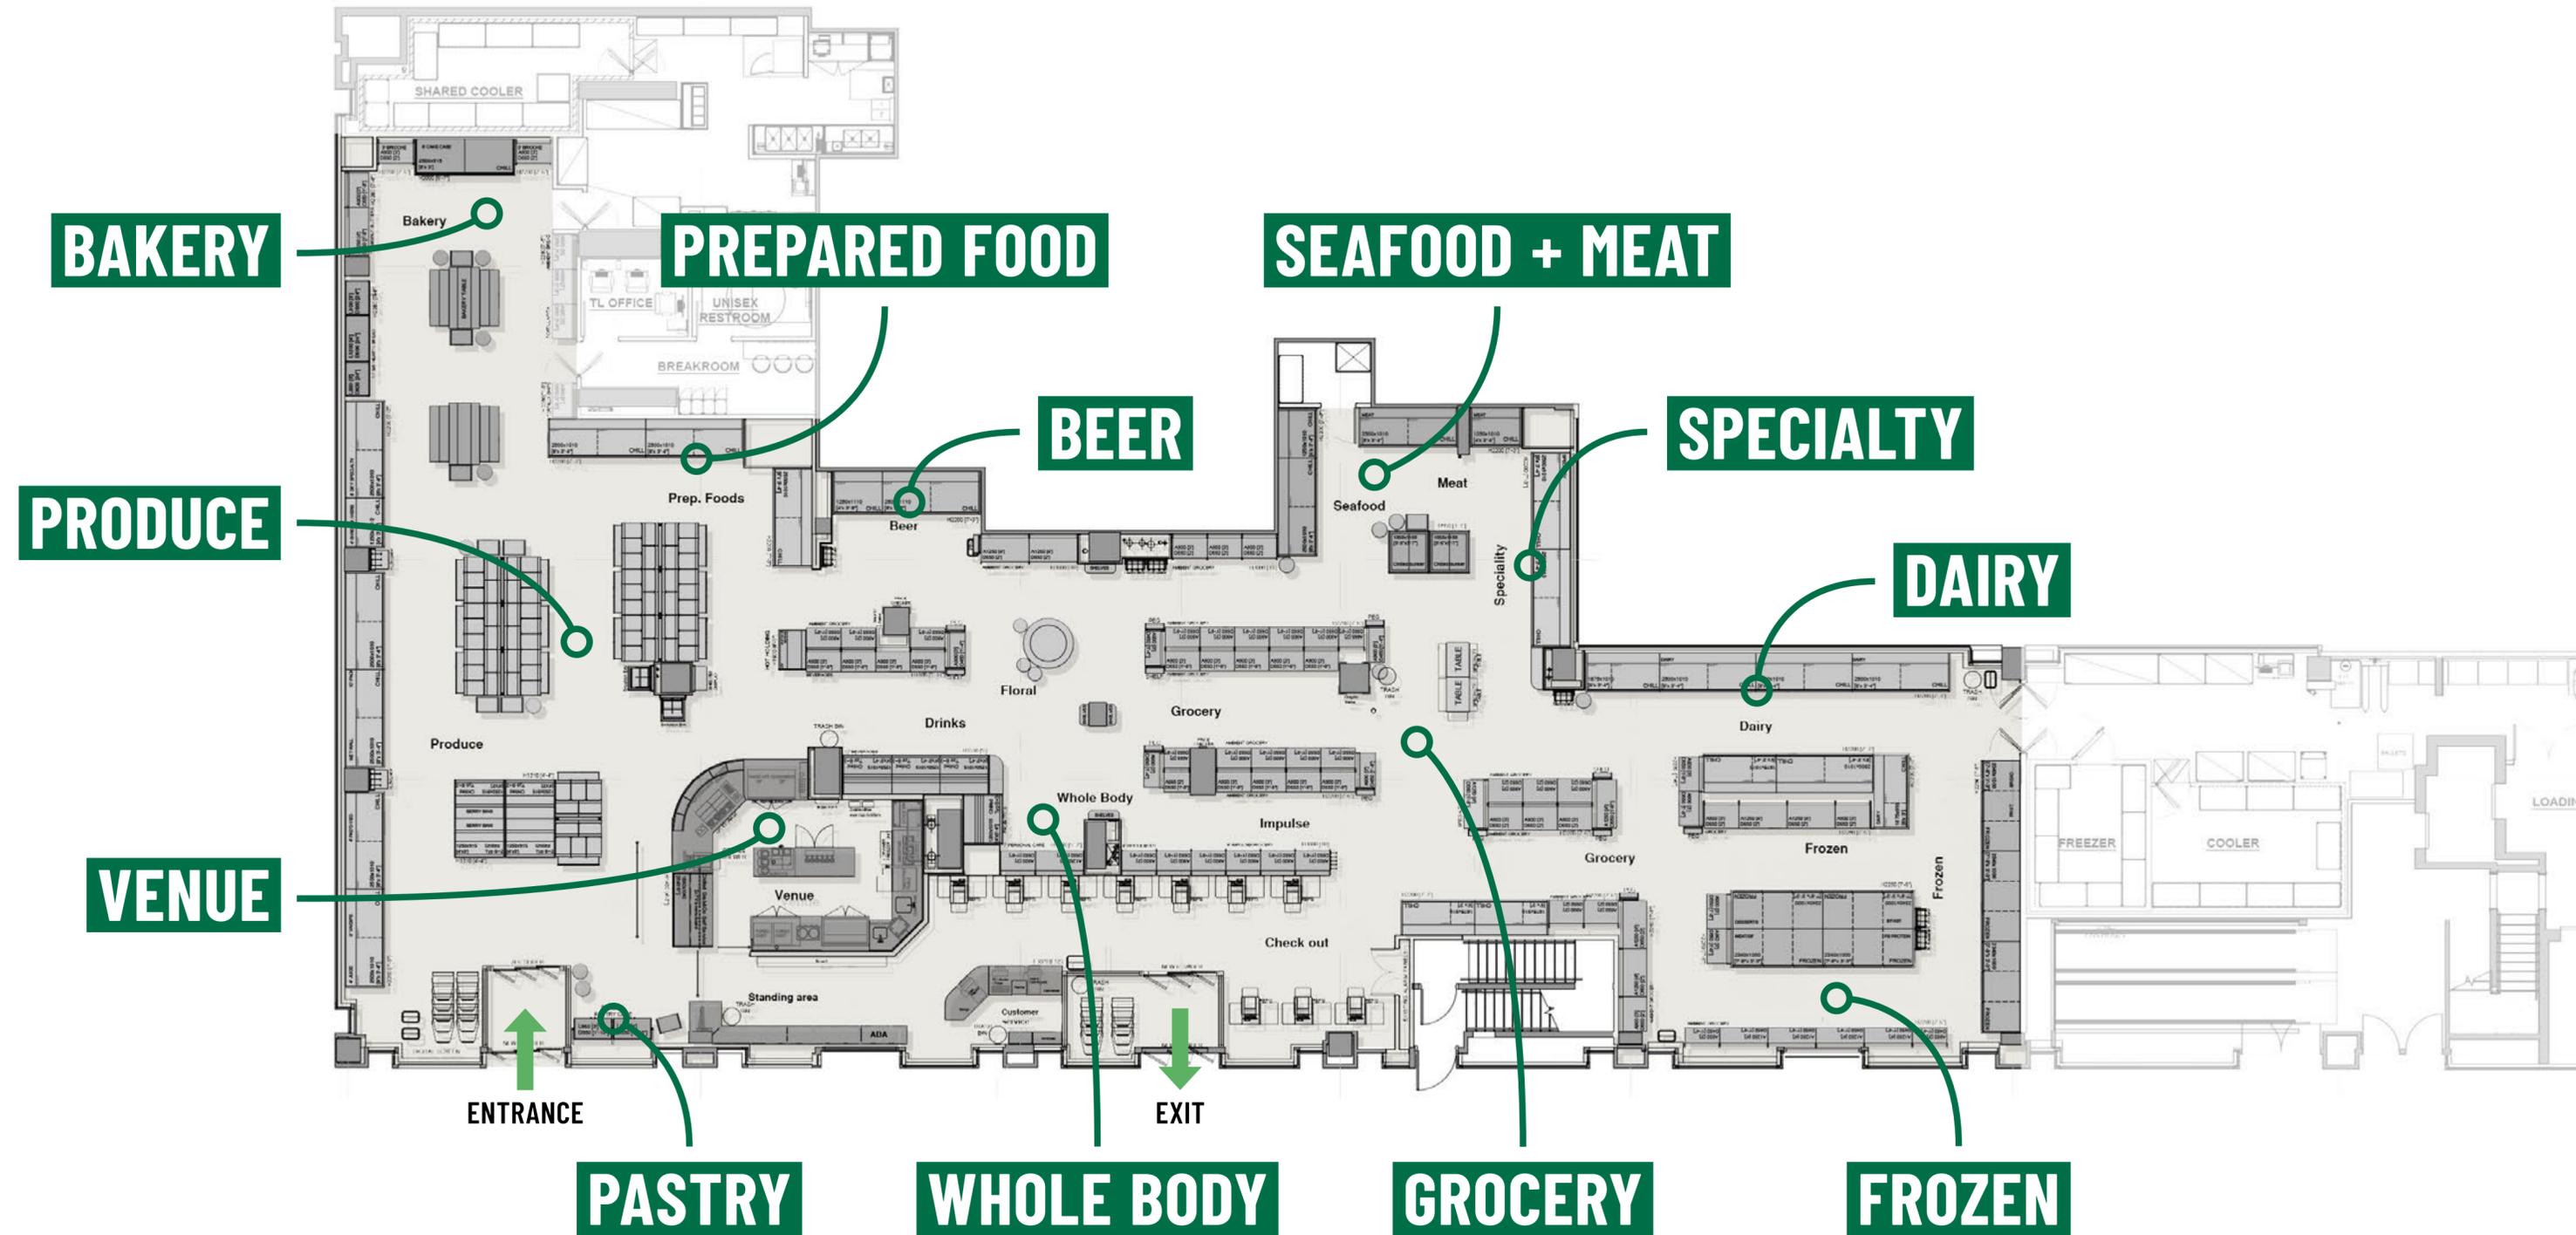

BENEFITS

- No need for a refrigeration plant
- Possibility of connection to a waterloop system
- Simple pipework and maintenance
- Expansion options, no interruption during conversion
- Massive reduction in construction times for quick conversions and possible rollouts
