# Inkoop Bassum

As part of the **fifth project** by Schweitzer for the Oetken family business, the store in Bassum was renovated based on the design concept by Inkoop Harpstedt.

The exterior façade was enhanced with a wood-look finish, while the fruit and vegetable section, as well as the wine department, were renovated and fitted with new furniture and wall graphics. Decorative floors and metal structures with wooden cladding create striking accents. The lighting was replaced with solutions from the Italian lighting studio Imoon, and the checkout area was adapted.

The Design & Build concept improves **customer flow** and creates a **modern, cosy market atmosphere**.
