COOLING EXPERTS SINCE 1927

EPPAN

FREEZER UNIT

Our Eppan wall cabinet keeps **frozen foods perfectly preserved** within a temperature range of -0.4 to -11.2°F . The large-surface glass panels ensure **optimum transparency**, thereby providing a perfect view of your displayed products.

The low temperature is distributed evenly between all the shelf levels. The **large doors** mean that customers get a good view of the frozen foods inside, even from a distance. Anti-condensation film on the inside of the glass reliably prevents misting-up when the doors are opened. Eppan consumes up to **20% less energy** than similar products by using **500 g of R290 refrigerant**.

REASSURING TO KNOW

The shelves can be tilted and are height-adjustable.

EFFICIENCY

Hot gas defrosting to ensure the right temperature throughout.

SERVICE

Easy and hassle-free maintenance.

RELIABILITY

Up to 70% fewer unscheduled service call-outs.

CUSTOM DESIGN

All our display cases can be matched to the visual identity of your store in terms of their colours and materials.
